MSU is an affirmative-action, equal-opportunity employer. Michigan State University Extension programs and materials are open to all without regard to race, color, national origin, sex, gender, gender identity, religion, age, height, weight, disability, political beliefs, sexual orientation, marital status, family status or veteran status.

MICHIGAN STATE UNIVERSITY Extension

2

What are we doing?

- Explain the process for developing an asynchronous email course using Qualtrics tools, including automated evaluation.
- Identify topics or content areas that may be appropriate for email course development.
- Create an outline for a new email course offering.

MICHIGAN STATE UNIVERSITY Extension

5

The need

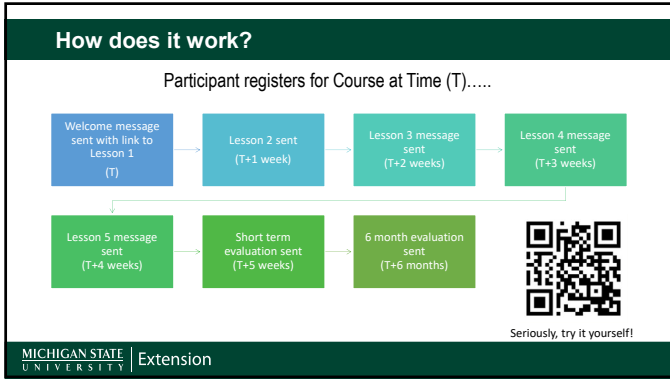

- Needs assessment
 - 2021 survey of Great Lakes and St. Lawrence Municipal Governments
 - 300 jurisdictions across 8 states and 2 provinces
 - Demonstrated interest in the content (coastal resiliency), just a lack of time for traditional trainings
 - Research on barriers to coastal planning (Horvath et al. 2020)
- How to deliver existing content in a method the audience wants

“A majority of respondents expressed a preference for receiving information on coastal issues through websites or newsletters. This was followed by a lesser, but still notable, interest in receiving information through workshops and conferences, reports and studies, and virtual training.” (Groat, Lewis and St. Lawrence Cities Initiative, 2021)

Set It and Forget It: Using automated email courses in your work

10

Qualtrics – Surveys

- Create the surveys that will function as your registration and any evaluations
- Registration survey should have:
 - Name for personalization
 - Email address to send lessons to
 - County of Residence
 - Demographics
- Evaluations
 - Automation makes it very easy to set up short term and longer evaluations, use it!
 - Great for demonstrating impact and informing future programs
 - Keep them short and simple and expect low response rates

MICHIGAN STATE UNIVERSITY | Extension

11

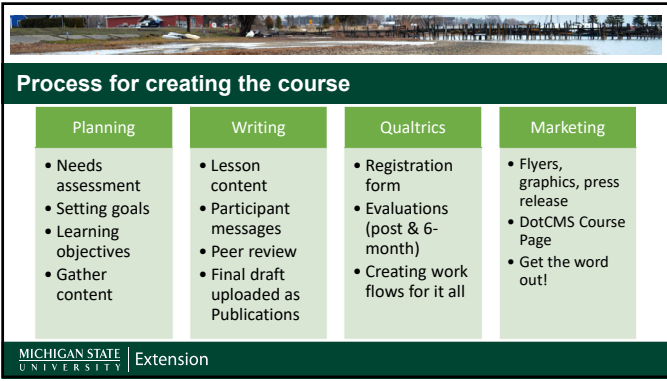

Qualtrics - Workflows

- Workflows are a feature in Qualtrics to automate tasks like:
 - Master Citizen Planner Application – Notifies the appropriate Extension staff when there is a new applicant in their service area
- Email course runs on automated workflows all triggered when a registration is received
 - Lesson workflow: Sends series of six emails with links to lessons
 - Evaluation workflow: Sends the short term and six-month evaluations at appropriate time
- Great documentation from Qualtrics on workflows here:
<https://www.qualtrics.com/support/survey-platform/actions-module/setting-up-actions/>

Process for creating the course

Planning	Writing	Qualtrics	Marketing
<ul style="list-style-type: none"> Needs assessment Setting goals Learning objectives Gather content 	<ul style="list-style-type: none"> Lesson content Participant messages Peer review Final draft uploaded as Publications 	<ul style="list-style-type: none"> Registration form Evaluations (post & 6-month) Creating work flows for it all 	<ul style="list-style-type: none"> Flyers, graphics, press release DotCMS Course Page Get the word out!

MICHIGAN STATE UNIVERSITY | Extension

13

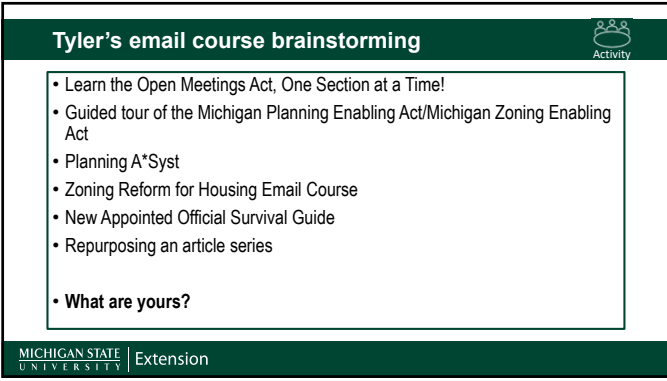

Planning – Establish YOUR goals

- What is the goal of the course?
 - For Great Lakes Coastal Planning and Zoning it was to get already existing content to a specific audience in a way they preferred while marketing other programs
- What is YOUR goal?
 - What is the need?
 - Who is the audience?
 - What are the key topics/units to cover?
 - What level of detail?

MICHIGAN STATE UNIVERSITY | Extension

14

Tyler's email course brainstorming

- Learn the Open Meetings Act, One Section at a Time!
- Guided tour of the Michigan Planning Enabling Act/Michigan Zoning Enabling Act
- Planning A*Syst
- Zoning Reform for Housing Email Course
- New Appointed Official Survival Guide
- Repurposing an article series
- What are yours?

MICHIGAN STATE UNIVERSITY | Extension

15

Set It and Forget It: Using automated email courses in your work

Planning – Gather YOUR content Activity

- What content do you have that can support your learning objectives?
- Fill these out on the Learning Objective Outline Worksheet

MICHIGAN STATE UNIVERSITY | Extension

19

Writing – Create the Content!

- Two main types of writing to do
- Lesson content
 - Guided by goals and learning objectives
 - Keep the content manageable and appropriate for the audience
 - Get others to peer review the content
 - Format into a professional package and upload as Publications to DotCMS
- Qualtrics content
 - Registration forms
 - Evaluation tools – Measure impact in the short and medium term
 - Workflow email messages – The text and links that will automatically get sent

MICHIGAN STATE UNIVERSITY | Extension

20

Marketing – Get the word out

- Once everything is created the challenge is to drive traffic to the course...
- Lean on the Extension marketing resources: https://www.canr.msu.edu/od/communications_marketing/
- Potential options:

Things to make	Things to do
Website article	Promote during programs
Flier	Feature in newsletters
Social media graphics/language	Advertise through county office networks
DotCMS Course page	Include in email signature/out of office
Press release	Share in professional networks

Set It and Forget It: Using automated email courses in your work

Impact so far – 2022 short term evaluation

- 163 individuals registered across 50 (of 83) counties in Michigan
 - 92% strongly agreed or agree that they had increased their knowledge about Great Lakes coastal planning and zoning.
 - 100% agreed or strongly agreed that as a result of the course they are aware of resources available on the topic to assist in planning and zoning.
 - 77% responded that the course exceeds or far exceeds their expectations.
 - 62% plan to share the information provided with others
- *“Appreciate you providing educational content in this unique format.”*
- *“This course is a one stop resource for everything related to planning any activity around the Great Lakes. Thank You!”*

MICHIGAN STATE UNIVERSITY | Extension

22

Impact in 2022 six-month evaluation

- 86% reported that since they completed the course they had shared the information provided with others
- 86% reported that since they completed the course they had learned more on the topic
- 43% said they had accessed additional resources available on this topic to assist in planning and zoning
- One respondent reported that since taking the course they *“volunteered to serve on [their] Township Planning Commission and we are now updating our Master Plan to include a Chapter on our Lake Michigan Shoreline.”*

MICHIGAN STATE UNIVERSITY | Extension

23

Impact in 2023 – Short term evaluation

- 78% strongly agreed that they had increased their knowledge about Great Lakes coastal planning and zoning.
- 89% agreed or strongly agreed that as a result of the course they are aware of resources available on the topic to assist in planning and zoning.
- 66% responded that the course exceeds or far exceeds their expectations.
- *“Well done, informative course. Topics included are ones I would not have been exposed to otherwise. Additional reading resources are aa useful tool I will share with other planning commissioners.”*

Set It and Forget It: Using automated email courses in your work

How hands off is it really?

- In 2023/2024 to maintain this offering I have:
 - January - Compiled evaluation responses for the previous year and reported in PEARS
 - January - Encouraging marketing in coastal counties with no participants to date
 - July - Mid-year summary for evaluation for PEARS (in 2023, not 2024)
 - Occasional user question
- Has created some additional work-opportunities...
 - Used the course as an outline for a F2F presentation as part of a lunch and learn
 - Sharing at conferences
 - Direct Contacts with clients that have additional questions
