

4-H CLOVERBUDS

St. Joseph County Cloverbud Program: Animal Demonstration Program

The Cloverbud program in St. Joseph County is for youth 5-7 years old as of January 1, 2024. For 2024, Cloverbuds will have the opportunity to do still exhibits and to show a rabbit, dog, pig, goat, sheep, dairy feeder steer, and/or horse at the St. Joseph County Grange Fair. Please refer to the Fair Premium Book for a full listing of Cloverbud classes.

Below you will find specific rules and expectations for each animal class. These projects will be “exhibited in **non-competitive**, age-appropriate activities that are designed for this age group.”

Cloverbuds do not necessarily need to own the animal they choose to exhibit. They may work with and/or borrow an animal that is owned by another, older 4-H member (mentor). In the swine, goat, sheep, and dairy feeder projects, the Cloverbud must use an animal that is already being exhibited at the fair by a 4-H mentor. **Exception:** open class goats may be used if they belong to the Cloverbud. If the Cloverbud owns the rabbit, dog, or horse they exhibit, that animal **will not be housed** at the St. Joseph County Grange Fair. It must be brought to the fairgrounds in an appropriate cage/trailer and then returned home following the specific show.

Cloverbuds are **required to attend a minimum of 2 workouts** with their mentor and the animal they are bringing to fair. Species leaders will sign off on the mentor form at final fair sign ups.

As per the Michigan 4-H Cloverbud Learning Guidelines, all 4-H volunteers must work within the guidelines of the Cloverbud section of the Michigan 4-H Participant Age policy to ensure all youth’s safety.

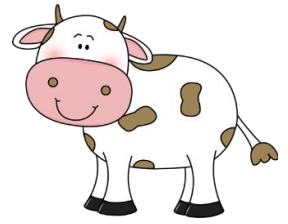

Special rules for **5-year-old Cloverbuds**, per the state program policy, “each 4-H Cloverbud must be directly assisted one-on-one by a parent, guardian, or adult volunteer while the child is in contact with the animal.” 5-year-old Cloverbuds will only be eligible to show a rabbit, dog, or horse with an adult over the age of 18.

For **6- or 7-year-old Cloverbuds**, per the state program policy, “each 4-H Cloverbud must be directly assisted one-on-one as needed by a parent, guardian, adult volunteer or 4-H teen who is in close proximity while the child is in contact with the animal.” The parent, guardian, adult volunteer or 4-H teen should serve in a supporting role.

Since safety is of the utmost priority, MSU Extension staff or 4-H volunteers within the species who do not feel that an activity is safe for the youth involved have the right, and are encouraged, **to remove the youth from an unsafe situation.**
